

# Apricity@Work™

## COVID-19 Monitoring Made Easy

### An End-to-End Solution, Connecting Monitoring to Care

- Cloud-based, secure and HIPAA compliant
- Easy to implement, no technical integration required
- Protect privacy of personal health information
- Non-intrusive health and activity risk screening
- AI-powered risk model that incorporates clinical expertise
- Real-time data and configurable controls for employers
- CDC-based protocols for return-to-work clearance
- Promote wellness with virtual mindfulness training
- Capture data for contact tracing

### Why Choose Us

- Clinical and scientific expertise applied to CDC guidance
- Medically grounded decision support algorithms
- Configurable controls to manage risks appropriately
- Cloud-based easy-to-use solution with no integration requirement
- Experienced client support, from policy development to implementation

### The Apricity Difference

- Medical expertise applied in decision support
- Data & controls for employers to address a complex challenge
- Health related resources for workforce wellness & sustainability
- Interoperable with a virtual care platform that can support downstream care

Apricity Health is the creation of renowned physicians and scientists who are passionate about improving health for all people.

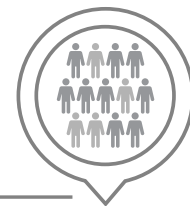

#### Check-In Virtually

Self-report of activity, symptoms and pertinent vital signs

#### AI-Powered Risk Assessment

Probability modeling of intrinsic and extrinsic risk factors

#### Real-Time Data & Controls

Controlled access to real-time data and trends to inform decisions
