

ApricityCare™

Medical Expertise in Your Pocket

A Digital Platform for You to Partner with Your Clinicians During Your Cancer Treatment

ApricityCare is an easy App to use. By answering a few simple questions once a day, you will keep your clinical team informed about your health status and symptoms so they can detect any complications early, and continually optimize your treatment.

You'll gain peace of mind — knowing that your team is not only reviewing your status every day, but also integrating your information with the latest medical advances to optimize your treatment with expert knowledge.

How to Get Started

Share this information with your doctor and ask them to sign up for ApricityCare. If you wish to learn more contact us: contact@apricityhealth.com.

ApricityCare connects you to a powerful digital platform to help your clinical team optimally monitor & manage your cancer treatment.

ApricityCare was developed by a team of renowned scientists who are passionate about improving cancer care for all patients.
